# 1952 Greetings

Dear Friends: I want to thank you for all the kindness shown me. Not only last year, but in all the years I have been growing gladiolus, and was sorry that I could not attend the shows last summer and meet the Friends I have known over the years, and others who I would like to know.

I find it is better for me to be at home, where it is a pleasure to meet the ones who find their way here, and I want you to meet Pauline. We enjoy working together, each doing the part of work they can do best. It is she who carefully selects the bulbs to fill your orders, after I have written name of variety and amounts on the bags. Then we pack them together, but all work has our personal attention, and Pauline could take over any part of it if I were not here.

We plan to have an Exhibit of Gladiolus in the basement of our home, again next summer, and it will be a pleasure to have you come to see it and us. Everyone who loves flowers is welcome.

Sincerely, Mrs. George Kinyon
